

grooming your arthritic dog

how to keep them calm and comfy!

pain medication

Time any medication 30 minutes prior to grooming for improved comfort.

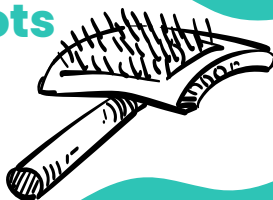

getting into the bath

Does your dog need assistance into the bath with stairs or a ramp? Can you use a bath mat to prevent slipping?

beware of sore spots

Be gentle over sore spots when washing or brushing. Let the groomer know of any sore spots they need to be aware of.

trim pad fur

Fur grows between paw pads and this can increase pain and injury, be sure to trim this fur.

trim nails

Long nails can also cause pain and injury, trim these to optimise comfort and safety.
